### **DETAILED ACTION**

1. Claims 1 and 2 are currently pending in the instant application.

#### ***Response to Amendment***

2. Applicant's Amendment and Response, submitted December 9, 2008, has been reviewed by the Examiner. Accordingly, claim 1 has been amended.

#### ***Previous Claim Rejections - 35 USC § 102***

3. Claim 1 previously rejected under 35 U.S.C. 102(b) as being anticipated by the CAPLUS abstract of Auwers, K. et al., Accession No. 1932:11638. In view of Applicants' amendment in which carbocyclic rings have been deleted from the definition of "Q" in claim 1, the rejection has been obviated and is withdrawn.

### **REASONS FOR ALLOWANCE**

4. In view of Applicant's amendatory changes, claims 1 and 2 are allowable over the prior art. The following is an examiner's statement of reasons for allowance:

This invention relates to novel amide compounds according to the formula of claim 1 and its pesticidal composition. The allowable compounds are limited to the heterocyclic compounds according to "Figure One" of claim 1. Certain amide compounds are known in the art as having pesticidal activity, however the aspect of preparing the instant claimed heterocyclic-alkyl-amides as instantly claimed is novel and unobvious. After a thorough search, the closest of prior art, the Auwers abstract, was found to teach a similar phenyl-amino-cyano-ethyl ester. However the Auwers abstract fails to teach or render obvious the instant claimed heterocyclic compounds according to the formula of claim 1 and does not fairly suggest methods of using the instant claimed compounds as pesticides.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
